SHIVAM TIWARI

Senior UI/UX Designer

+91 8529429299 | shivam.me202@gmail.com | linkedin.com/in/shivamtiwarii | https://www.shvamz..vercel.app

PROFESSIONAL SUMMARY

Senior UI/UX Designer with 6+ years of experience leading end-to-end design for enterprise SaaS, web, mobile, and wearable products across financial services, energy, cybersecurity, construction, and logistics sectors. Proven ability to direct design teams, manage junior designers, take ownership of projects end-to-end, and communicate directly with stakeholders. Builds and governs scalable Figma design systems (tokens, components, variants) and designs to WCAG 2.1 AA accessibility standards. Proficient in using AI tools such as Claude and Codex to accelerate front-end design and development. Delivered work for organizations including Hero MotoCorp, Aditya Birla Group, KPMG, First Group, GWR, and HMEL.

LEADERSHIP HIGHLIGHTS

- Manage and mentor junior designers, reviewing their work and guiding process, tooling, and design quality.
- Take full ownership of projects end-to-end, from requirements through delivery and communicate directly with stakeholders throughout.
- Directed design activities and managed a design team at VA Creations, owning execution across multiple concurrent client projects.
- Act as the senior design lead on enterprise accounts at Q3 Technologies, guiding design decisions and providing direction to team members.
- Proficient in using AI tools such as Figma make, Claude and Codex to accelerate front-end design and development.

CORE COMPETENCIES

Design & Research: Figma (Dev Mode, Variables, Auto-Layout), Wireframing, Prototyping, UX Research, Usability Testing, Information Architecture, Interaction Design

Design Systems: Component Libraries, Design Tokens (color, type, spacing), Variants, White-Label Theming, System Governance

Accessibility: WCAG 2.1 AA, Contrast & Focus Testing, Keyboard Navigation, ARIA Labeling, Screen-Reader Compatibility

AI-Assisted Design & Development: Claude, Codex (AI-assisted front-end design and development)

Platforms: Enterprise SaaS/B2B Web Apps, Mobile Applications (iOS & Android), Wearables / Smartwatch Interfaces, E-commerce Platforms

Tools: Figma, FigJam, Adobe Photoshop, Illustrator, After Effects, Adobe XD, InVision

Technical: HTML, CSS, Codex

Leadership: Team Management, Design Mentorship, Project Ownership, Stakeholder Communication, Client Relationship Management, Requirement Gathering

PROFESSIONAL EXPERIENCE

Senior UI/UX Designer

Apr 2024 - Present

Q3 Technologies

- Lead UI/UX design for enterprise clients including Hero MotoCorp, Aditya Birla Group, KPMG, First Group, GWR, and HMEL, overseeing projects from discovery through delivery.
- Design enterprise SaaS, mobile, web, and wearable interfaces across financial services, energy, cybersecurity, construction, and logistics sectors.
- Build and govern scalable Figma design systems — components, variants, auto-layout, and design tokens — reused across multiple enterprise products.
- Design to WCAG 2.1 AA accessibility standards, covering contrast, focus order, keyboard navigation, and ARIA labeling.
- Manage and mentor junior designers, take ownership of projects end-to-end, and communicate directly with stakeholders throughout delivery.
- Use AI tools such as Claude and Codex to accelerate front-end development, partnering with developers, business analysts, and project managers to align design output with requirements.

Lead Product Designer
Oct 2023 - Mar 2024

VA Creations (Contract)

- Directed all design activities and managed a design team, ensuring efficient execution across concurrent projects.
- Owned end-to-end design responsibilities from initial concept through final delivery, including planning and quality review.
- Collaborated directly with clients to define project scope, gather requirements, and manage expectations throughout the design lifecycle, while setting design direction and reviewing team output for consistency and quality.

UI/UX Designer
Aug 2021 - Oct 2023

Flasho (Chutney Retail Services Pvt. Ltd.)

- Led the design process for multiple web and mobile applications (HumBee, Flasho, IASGuru, and others) from concept to final implementation.
- Conducted user research and usability testing to gather insights and validate design decisions before development.
- Collaborated closely with cross-functional teams including product managers, developers, and founders to ship user-centered features.
- Contributed to shaping product direction across a portfolio of applications at an early-stage company, balancing speed with design quality.

UI Designer & Web Developer
Jul 2020 - Feb 2021

Bixlash

- Delivered high-quality design and development services for 5+ independent clients.
- Designed and developed an e-commerce platform for digital assets (Bixlash), focusing on intuitive interfaces and seamless user experience.

KEY PROJECTS AT Q3 TECHNOLOGIES

GWR (UK Train Operator) — Designed native iOS/Android app experiences for ticket booking, journey management, staff management and reservations; built a scalable Figma design system used across the product.

CyberWatch (Security Operations Platform) — Revamped dashboards, charts, maps, and alert tables for a cybersecurity SOC platform; designed permission-aware UI states for role-based access.

Freight Portal (B2B SaaS Analytics) — Designed an enterprise-grade B2B SaaS experience for procurement directors and bid managers, backed by a reusable Figma design system.

Construction Management Portal (Norway) — Redesigned a multi-role construction management portal, restructuring navigation and task flows to reduce complexity for different user roles.

White-Label Design System — Built a foundational, multi-brand design system with reusable components, design tokens, and governance documentation adopted across teams.

Smartwatch Design — Designed wearable UI for a smartwatch, including a control app and supporting watch UI screens.

Additional Enterprise Engagements — HMEL Live (Energy sector portal), AEML (Urban power distribution mobile app), Aditya Birla Group CMIS (reports & dashboard redesign), ABG Compendium (branded design engagement), and Hero Motocorp (App Modernisation).

EDUCATION

Bachelor of Technology - Computer Science
2018 - 2022

Lovely Professional University, Jalandhar, Punjab

XII - Science
2015 - 2017

VR Sr. Sec. Public School, Baddi, Himachal Pradesh

Interests: Travelling, Reading, Watching Movies, Filmmaking
